## A..A..O.. NOBLES of the MYSTIC SHRINE

## Illustrious Noble, Attend CEREMONIAL SESSION

TUESDAY, FEBRUARY 25, 1913  
AT 6 O'CLOCK IN THE AFTERNOON

MECHANICS BUILDING, HUNTINGTON AVE.

### Remember This Law!

"RESOLVED: That any Shriner member of this Temple seen wearing a Shrine Fez in a saloon or other place where he would not take his wife,

mother, or sister, will have charges preferred against him for 'conduct unbecoming a Noble of the Mystic Shrine.'"

We know that there are a whole lot of good fellows in our jurisdiction who would like to be Shriners, and are anxiously waiting for an invitation . . . . So—

Have them sign a Shrine petition,  
Get their check for fifty,  
So they are in good condition,  
So they will get through thrifty.

We want them strong and hearty,  
Brave and free from guile,  
So when they join our party,  
We can greet them with a smile.

The fifth day of March  
Is the day we celebrate;  
So bring out from your Baliweck  
A nice, juicy candidate.

## Pointed Remarks for Novices

Be active as an office seeker in November.

Determine to be the best lump of ginger that has broken into Aleppo in years.

Remember, the eel is the only thing that has a license to squirm; so don't try to assume its prerogatives.

Even though you do find yourself attacked with epizootic or the blind staggers, hang on for dear life. You'll land well.

The only modern thing that has a right to be tired is the bicycle. You may conclude that you need to be pneumatically tired ere you're through.

We never use "force," just quaker oats.

Hypnotic spells will be telepathically administered to each neophyte, and when the ebb tide of grit and the flow tide of

nerve act in unison, then he is ripe for the cold plunges.

This test obviates the necessity for the old-time surgical operation of bleeding.

A novice is always considered to be built on the instalment plan. For that reason a special corps is in attendance to collect him together at the finish.

Do not emulate, in all particulars, that toothsome genus of lamelli-

### Visiting Nobles

Will be welcomed in the most cordial manner, and given the Arabs' greeting, *provided* they have complied with the edict of the *Imperial Council*, which requires them to show their passport for 1913 to Outside Guard. Don't be embarrassed by presenting any kind of an excuse for not being prepared. **The Guard says all Arabs look alike to him.**

**A Night of Necromancy** The Director-Noble, Claredon E. Holman, has promised us some weird things, startling revelations, and climax cappers, so that it is a sure thing you will be glad you came if you come, and if you don't you will be sorry when you hear about it. We need your cheerful smile, melodious voice, and glad hand, so don't overlook the date.

**Annual Dues** There are a few Nobles who have overlooked paying their dues for 1913, all of which will be overlooked if they will kindly send in the amount now.

branch mollusk of the third order monomya, distinguished by the bilateral symmetry of the heterogeneous convexity. Whose labial ganglia are very minute, while the parieto-splanchnic are well developed.

Which will sit in the mud by the month at a time, thinking out beautiful and ennobling thoughts without assistance from outside sources. In addition it also possesses a great amount of persistence. The oyster never gives up; it will cling to a rock during the entire period of its existence without complaining or becoming discouraged. In fact, the oyster's motto seems to be like the Shriner's, "Hang on!"
